

# PARALLEL

BUSINESS CENTRES

Serviced offices work because they offer the flexibility and safeguards that modern business needs. Rather than a traditional long term lease which can easily become a millstone if circumstances change we offer a simple fixed term licence agreement for up to a year.

The number of desks rented can be varied easily to match changing requirements. All the chores and costs associated with maintaining and running a building are taken care of, including reception and admin staff, furniture and utilities.

Admin assistance and meeting rooms are on hand – you pay only for what you use. Our hassle-free itemised monthly invoice helps you manage your costs, leaving you free to concentrate on your own business.
